WORK EXPERIENCE

Programmer Analyst
Sanmina | Nov 2021 - Present

- Handling web tools like NCMR, iPR/iCAR, Inspection Maestro, EAM & supporting users with issues reported in above tools by analyzing the root cause of the issues or fixing the bug in tools, getting it solved and make sure that issue never happens again.

- Working in SQL developer for storing, manipulating and retrieving data in databases.

- Working in SQL loader for moving bulk data from external files into oracle database(SQL database).

Graduate Trainee
Sanmina | Nov 2020 - Nov 2021

- Worked in SQL developer for storing, manipulating and retrieving data in databases.

- Responsible for doing software testing in the web tools NCMR & iPR/iCAR after any enhancement and make sure that the tools work as expected & report the documented results to my manager.

- Worked in SQL loader for moving bulk data from external files into oracle database(SQL database).

- Handled rollout activities if any new plant is about to use customized web tools in Sanmina & doing all the setups required for the plant to handle those tools for production purpose.

- Worked in designing notification mails sent to users as part of approval in web tools like NCMR & iPR/iCAR using HTML & CSS.

Intern
Sanmina | Dec 2019 - Nov 2020

- Worked in Oracle 11i where I was supposed to create sales order, purchase orders, Jobs etc...for testing purpose and also assisting users with any doubts/ issues faced in the process of creating purchase order, sales orders etc...
